Not illustrated. 1922 Excerpt: .but for the purpose of this survey we have considered as milk depots only those places where milk is handled for distribution on a large scale, such as pasteurizing plants, etc. The classes of milk depots in Chicago, for example, are: 1. Plants in which pasteurization alone is carried on. 2. Plants bottling the milk. The milk is received, taken to a pasteurization plant and then returned to the station and bottled. 3. Plants in which the milk is received, pasteurized and bottled in one place. The frequency of inspections varies greatly. In the larger cities inspections are made at least weekly. In Baltimore they are made four times a week, and in Los Angeles and Boston, daily. For the second group of cities the procedure varies from daily to once a year. Only 15 of the smaller cities inspect weekly or oftener, the majority reporting...
