Brand New Book ***** Print on Demand *****.Excerpt from Notes for Forge Shop Practice: A Course for High Schools The Notes on Forge Shop Practice have been especially arranged for the use of the classes in this subject at the Cleveland Technical High School. It is given publication to meet the demand or needs of such classes in all Manual Training or Technical High Schools for a series of exercises including the necessary explanatory notes and working drawings. The author acknowledges indebtedness to Mr. J. R. Lambirth of the Massachusetts Institute of Technology for the permission to use some of his original drawings in this book. The book is not to be considered a theoretical treatise on the manipulation of iron and steel, for as its title indicates, it is simply an outline course in the subject for High School pupils.
