Grin Verlag Gmbh Apr 2014, 2014. Taschenbuch. Book Condition: Neu. 210x148x1 mm. This item is printed on demand - Print on Demand Titel. Neuware - Seminar paper from the year 2010 in the subject English Language and Literature Studies - Culture and Applied Geography, grade: 1,0, University of Warwick, language: English, abstract: In the following essay I am going to discuss Kureishi's approach on Said's criticism on Orientalism in his novel The Buddha of Suburbia. I will start by establishing Said's argument in detail and engage with some of the paradoxes revealed within it. This will be followed by what Kureishi opines which is not completely in favour of nor against Said and thus problematises some of Said's premises. Orientalism is a system of images, attitudes and ways of seeing the Orient. It is the academic study of political and literary discourse about Arabs, Islam and the Middle East, especially by France, Britain and the USA. Many stereotypes within Orient writing in the West make its presentation contradictory in that it is both attractive and repulsive at the same time. 16 pp. Englisch.
