His original design was to frame an orderly series of introductory chapters or sections dealing with all the chief constructions of Latin Syntax; each chapter to be followed by two kinds of Exercise - the one elementary, consisting of short sentences, the other a continuous passage suitable for more advanced students; notes and hints being appended to either, as might seem convenient. The publication, however, of the revised edition of Arnold's Latin Prose Composition (virtually a new book under an old name) partly anticipated this design, so far as concerns the elementary exercises and detailed grammatical introductions.
