Reviews

It is great and fantastic. I actually have read and so i am certain that i am going to going to go through once again yet again in the future. I realized this ebook from my dad and i encouraged this book to find out.

(Dr. Kayden Gerlach)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 94 pages. OCLC Number: 48686327 Excerpt: . . . about 555, 000 per presence day; and refueling four SSN-688s and replacing them with four new Virginia-class submarines would cost 1. 1 million per day. Converting four Trident submarines to SSGNs would also provide a significantly more cost-effective capability to launch Tomahawk missiles and provide special operations units than the other options. DODs written comments on a draft of this report are included as Agency Comments appendix I. The Department generally agreed with the report but noted and Our Evaluation that our cost-effectiveness comparison did not account for platform replacement costs in all four options or across the same number of years. As described in our methodology section, we had to use different periods of analysis to match the differing operational lifespans of the two submarines. Each option provides benefits over different periods thereby making direct comparisons difficult. However, to make the options more comparable, we included an option that buys four Virginia-class submarines to replace refueled SSN-688 submarines once they reach the end of their useful life. By adding the depreciated acquisition costs and the operating and support costs for the first 10-12 years of the replacement submarines to the costs associated with the refueled SSN-688s, this option becomes more directly comparable to the costs associated with the 20-22 year life of the SSGN. We did not assess options that would involve replacing SSGNs after 22 years because DOD has not developed any requirements or cost estimates for their replacement. DOD also noted that appropriate metrics would need to be developed for all mission areas to fully assess SSN-688 and SSGNs across a broad set of missions. Our report notes that the Navy lacks suitable metrics for missions...
